WELCOME TO THE MID-CAMP CEREMONY ON TUESDAY (18.7.)!

The story begun at the opening ceremony and it ties the programs and the camp together. Have you already spotted the characters from the story walking around the camp and program valleys? The main character Valo is attending a scout camp for the first time and is very excited but nervous. After the opening ceremony Valo has arrived at the camp but gets insecure and wants to leave the camp after talking to Kuura.

The Mid-Camp ceremony will have a short dialogue in Finnish. Here you can read the translation. You can read this together with your group before going or share it for everyone to read during the ceremony.

MID-CAMP CEREMONY SCRIPT:

KUURA: Oh, you found it here, I was already waiting. I was wondering if you can manage the challenges. Alas, it's not over yet. The biggest challenge of them all is right here in front you. As you can see, Valo right here does not feel complete. Should we help?

KUURA: I cannot hear you?!

KUURA: Is that all you got?

KUURA: Alright, that's the spirit. Everyone along, open your phone and show Valo the lights!

VALO: You helped me, this is the best place I can be. Our Kajo is tomorrow's light. Thank you for helping! Sing along the camp song, you can find the lyrics from the Kajo Lux application!

VALO: Good night! See you soon!

The Mid-Camp ceremony is a game played by the participants in small groups. For the game you will need an ActionTrack app, which can be downloaded to your mobile device before the camp. Don't worry if you don't have the app downloaded. A group will only need one working device and you can always ask other participants to help!

Please note that if you bring flags to the ceremonies, lower them during the performances so that everyone can see what is happening on stage! We love to see your flags up in the air before the ceremonies start and when moving back to the camp site!
